Monthly Medals

Feb	Nial Woods
Apr	Mark Abbott
Jun	Joe O Brien
Aug	Joe O Brien
Oct	Steve Clayton

This year we are using the Macrae formula for the monthly medals.

Each month you are in effect shooting against your average. Score over your average and your MCRAE will be over 100

Score less than your average and your MCRAE will be under 100.

This will give everyone a chance each month regardless of their shooting standard.

The Championship will be decided on the overall gun score and medals to 3rd place.
